

Subject: RoHS Compliance Statement

We at Contract Solutions Scotland Ltd. are committed to providing products and services that comply with applicable environmental regulations and directives.

This statement confirms that Contract Solutions Scotland Ltd., a precision engineering business with in-house metal finishing capabilities, including a small-scale plating line utilizing SurTec 650 and Iridite conversion coatings, maintains compliance with the European Union Directive 2011/65/EU, as amended by Directive (EU) 2015/863, commonly referred to as the RoHS (Restriction of Hazardous Substances) Directive.

Scope of Compliance

- All plated components and surface treatments provided by Contract Solutions Scotland Ltd. are processed using RoHS-compliant chemistries and methods.
- SurTec 650 and Iridite NCP (or equivalent) used in our facility are hexavalent chromium-free, in compliance with the RoHS restriction on Cr(VI).
- Our processes are designed to ensure that the final treated parts do not exceed the RoHS maximum concentration values for the following restricted substances:

Substance	Maximum Concentration (by weight in homogeneous material)
Lead (Pb)	0.1%
Mercury (Hg)	0.1%
Cadmium (Cd)	0.01%
Hexavalent Chromium	0.1%
Polybrominated Biphenyls (PBB)	0.1%
Polybrominated Diphenyl Ethers (PBDE)	0.1%
Bis(2-ethylhexyl) phthalate (DEHP)	0.1%
Benzyl butyl phthalate (BBP)	0.1%
Dibutyl phthalate (DBP)	0.1%

Contract Solutions Scotland Cuparmuir Industrial Estate Cupar Fife KY15 5RL Maximum Concentration (by weight in homogeneous

material)

Diisobutyl phthalate (DIBP) 0.1%

Substance

We regularly consult with our chemical suppliers and audit our internal processes to ensure ongoing compliance with RoHS regulations.

Should you require additional documentation, declarations, or specific test results, please contact us.
